PROLOGUE

It was just another ordinary day . . . until Sonic, hero of justice, is accosted by a secret military force code-named G.U.N.

Escaping the confines of a high-security helicopter, Sonic leaps down into the city streets in an effort to flee from his captors. Suddenly, a mysterious black hedgehog appears in front of him, grasping a Chaos Emerald in his hands. Meanwhile, across the globe, unexplained incidents occur, following the declaration of world conquest by Eggman himself.

Once aware of the connection between Shadow and Dr. Eggman, Sonic begins his quest to stop their evil plan, helped along the way by his old friends: Tails and Knuckles.

While searching for a top secret weapon known only as "Shadow," the evil genius, Dr. Eggman, penetrates the security of a high-level military base. Deep inside the compound, Dr. Eggman discovers that the weapon is actually a black hedgehog claiming himself as the "ultimate life form," a creature known as "Shadow."

Shadow invites Dr. Eggman to Space Colony ARK and reveals the Eclipse Cannon—an enormous weapon capable of destroying the world, more than enough to entice the evil genius to help out Shadow in his quest to conquer the world.

Just as they begin to revel in their plan for destruction, the villains are startled by a menacing bat named Rouge who offers her help as well.

Thus, the plot to conquer the world begins.

BASIC CONTROLS

Sonic Adventure 2 is a one or two player game. Connect the Dreamcast Controller to be used to Control Port A (one player) or Control Ports A and B (two players). You may, however, save or load game data from Control Port C or D.

Never touch the Analog Thumb Pad or the Triggers **L/R** while turning the Dreamcast Power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.

	DURING THE GAME	MENU CONTROLS
ANALOG THUMB PAD	Move a character	Move cursor (Select Menu Item)
D-PAD	—	Move cursor (Select Menu Item)
START BUTTON	Pause the game (bring up a Pause Menu)	—
GREEN BUTTON	Jump	Enter selection
YELLOW/BLUE BUTTONS	Action	Cancel (return to previous screen)
RED BUTTON	Switch Action Window	—
TRIGGERS L/R	Rotate Camera	—

* For character-specific controls, please see Character Introductions on p.6.

* To soft reset the Dreamcast and return to the title screen during game play, simultaneously press and hold the **A**, **B**, **X**, **Y** and Start Buttons.

ACTION BUTTON

The **A** Button (also **B** Button) is called an Action Button. Its function changes automatically according to the situation around the player, and will be displayed in the Action Window at the top right. For example, you can call small animals hiding in the Action Stages by whistling, or squeeze through narrow gaps by somersaulting. Also, when you have more than one choice of actions you can take for specific situation, press **A** to cycle through the choices.

JUMP PACK™

Sonic Adventure 2 is compatible for use with the Jump Pack (sold separately). Insert the Jump Pack into Expansion Socket 2 of the Dreamcast Controller.

CHARACTERS

SONIC THE HEDGEHOG

The fastest hedgehog on earth has a little competition. Mistaken for an escapee, Sonic is being chased by a secret military organization. He'll have to catch up with the mysterious black hedgehog in order to thwart Dr. Eggman's latest plan to conquer the world.

ABOUT THE STORIES

At the age of 10, I was given a book called "The Knuckles" by a friend. I was fascinated by the stories and the characters. I had never read anything like it before. The stories were so good, I read them every night before bed. I was so into them, I even wrote my own stories. I was so proud of them, I showed them to my friends. They were all so impressed, I felt like a real author. I was so happy, I was finally doing something I loved. I was so proud of myself, I was finally a writer.

QUESTION

Two identical particles, each of mass m , are moving towards each other with equal speeds v . They collide and move away with speeds u and w respectively. The angle between the initial direction of motion and the final direction of motion of one of the particles is θ . The angle between the initial direction of motion and the final direction of motion of the other particle is ϕ . The angle between the initial direction of motion and the final direction of motion of the other particle is ϕ .

ANSWER: CONSERVATION

Since the particles are identical, the final speeds u and w are equal. The angle between the initial direction of motion and the final direction of motion of one of the particles is θ . The angle between the initial direction of motion and the final direction of motion of the other particle is ϕ .

Initial speed of particle 1	v	Initial speed of particle 2	v
Final speed of particle 1	u	Final speed of particle 2	w
Initial direction of motion	0°	Initial direction of motion	180°

ANSWER: THE OTHER PARTICLE

The angle between the initial direction of motion and the final direction of motion of one of the particles is θ . The angle between the initial direction of motion and the final direction of motion of the other particle is ϕ .
